Let's Start!

It's all about promotion!

Learning Outcome

Express duty, advice, willingness, or intention to do something in spoken or written texts and in work and social contexts.

Ask your partner:

- What types of promotion or advertising do you think are the most effective?
- If you were going to try to sell a new product how would you advertise it to buyers?

Can Do Statements

- I can talk or report about things, actions, events, or people related to work and job issues.
- I can discuss reasons and results of an event or action related to work and jobs.
- I can exchange complex professional information related to work and job issues.

Let's Explore!

Adam **has an eye for*** promotion.

* To "have an eye for" something means to be good at doing something visual.

Instructions: Read the text aloud.

- Kristi:** How are you coming along with the media kit for the book? It has to be done quickly due to the looming release date next week.
- Adam:** Yes. It will be ready. I had never done one before so I did some research and looked at a lot of examples. It was so interesting that I'd like to focus on writing media kits.
- Kristi:** I've never done one either. What do you put in it?
- Adam:** Well, first you write an introduction of who you are, in this case the author and the title of the book. Next you can include a mission or manifesto to differentiate your business or product from the competition and explaining what the business stands for. I put in a statement about what the publisher stands for.
- Kristi:** Yes, sometimes it's hard to stand out in this industry, owing to the volume of competition.
- Adam:** The small publishers sometimes get overlooked because of the ubiquity of the large ones. We have to get noticed somehow. Next I put in some factual information about the product, our book. I described the content, illustrations, why it was written and who it was written for. I added in a couple illustrations so people can see how beautiful they are. Next you should put in some testimonials or quotes from people saying how great they think the product is. Once I get some testimonials from other authors saying that they love the book, I'll add those in. Testimonials are so influential that I'd like to try to get five in our media kit.
- Kristi:** Sounds great Adam! So is that the last part?
- Adam:** Yeah. I still need to add in the testimonials and then the last section is the price list and contact information for bookstores, libraries or schools that want to order the book from the publisher. It needs to be in PDF form, so converting to PDF is the last step.
- Kristi:** I'm looking forward to seeing the finished product.

What are the reasons and results behind it all?

Learning Points

Reason Clauses: Due to, because of, owing to Result Clauses: So ... that

When you want to introduce a reason for a particular situation, you can use the following prepositions:

- Because of
- Due to
- Owing to

You use because of before a noun or a noun phrase.

For example:

*We won't be able to make it **because of the weather**.*

Due to and owing to also mean *because of*. They sound a little more formal, and are therefore more common in professional English rather than conversational.

For example:

*She was unable to attend the meeting **due to a previous engagement**.*

*We have less money to spend **owing to the budget cuts**.*

When you want to link a cause with a result, you can use so ... that.

For example:

*The bus was **so hot that** I felt sick the whole way!*

For example:

*It all happened **so quickly that** I never had a chance to fully absorb what was going on.*

In formal English, you can put *So ... that* at the beginning of the sentence and put the verb before the object.

For example:

***So hot was the bus that** I felt sick the whole way.*

Examples:

- *It has to be done quickly **due to the looming release date next week**.*
- *It was **so interesting that** I'd like to focus on writing media kits.*
- *Sometimes it's hard to stand out in this industry, **owing to the volume of competition**.*
- *The small publishers sometimes get overlooked **because of the ubiquity of the large ones**.*
- *Testimonials are **so influential that** I'd like to try to get five in our media kit.*
