### Let's Start!

Anyone can build a website!

## Learning Outcome

Describe the reasons or results of events or actions in spoken or written texts, in work and social contexts.

### Ask your partner:

- How often do you surf the Internet?
- What types of websites do you like to go to most often?

## Can Do Statements

- I can talk or report about things, actions, events, or people related to work and job issues.
- I can discuss reasons and results of an event or action related to work and jobs.
- I can exchange complex professional information related to work and job issues.

## Let's Explore!

Adam is becoming a **webmaster**\*!

\* A "webmaster" is a person who builds and maintains a website.

*Instructions: Read the text aloud.*

- Adam:** Kristi, maybe while we're waiting I could get you to look at this website I'm designing for the book.
- Kristi:** Sure, I'd love to see it. I don't know how to make a website so I'm interested to see how you did it.
- Adam:** Sure, I'll go through the steps with you. The first thing is to choose the website building platform that you will use for your site.
- Kristi:** It sounds perplexing already.
- Adam:** It's not anymore. New content management systems like Word Press are very user-friendly. It's free to install and there's a community of users who have created templates and themes that anyone can use. People are adding resources all the time.
- Kristi:** It sounds like there's lots of support.
- Adam:** Yes, there is. The next I thing I did was to choose a domain name and a host to represent the book and publisher. Hosting is a service that connects your website to the Internet. On Word Press those cost about \$4 per month. You need to think up a brandable and catchy domain name.
- Kristi:** That would be the hard part for me.
- Adam:** Yeah, and there are already 150 million domain names out there so you have to get creative. So, after you've installed your content management system you can choose a theme or a template and start adding your content, like images or text. You can customize the templates any way you want so that they reflect what you want to communicate to your viewers. You can add pages and link them to your navigation bar so you can group types of information. On this website I'm working on linking pages for the author bio and some social media safety information. I'll also add in some images from the book illustrations once I get those files. You should also edit your page titles and taglines so that people searching for your site can easily find it.
- Kristi:** Wow Adam! It really looks great. Thanks for showing me how you put it together.
- Adam:** My pleasure. I'm still working on it. I think it will look great when it's all done.

## Let's Practice!

Adam gives the steps for building a website.

*Instructions: Use the options from the Word Bank to correctly complete the sentences. Read the complete sentences aloud. Check your pronunciation with your instructor.*

### Word Bank

choose the website building platform / choose a theme or a template /  
choose a website name / add link and page them / add pages and link  
them / customize the templates

1. The first thing is to \_\_\_\_\_.
2. The next thing I did was to \_\_\_\_\_ and a hosting.
3. After you've installed your content management system you can \_\_\_\_\_ and start adding your content.
4. You can \_\_\_\_\_ any way you want so that they reflect what you want to communicate to your viewers.
5. You can \_\_\_\_\_ to your navigation bar so you can group types of information.

## Let's Practice!

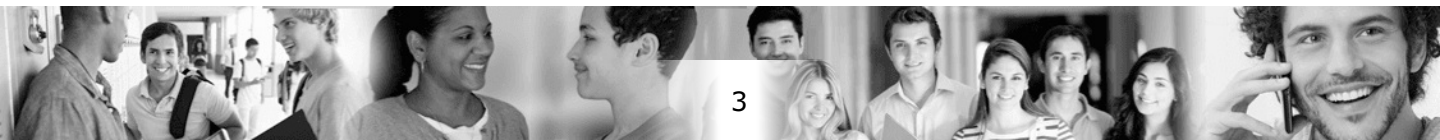

Kristi and Adam discuss their experiences with building websites.

*Instructions: Use the words from the Word Bank to correctly complete the sentences. Use capital letters where necessary. Read the sentences aloud. Check your pronunciation with your instructor.*

### Word Bank

get you to look at / there are already / to see how you did it /  
I'll go through / are adding resources

1. While we're waiting could I \_\_\_\_\_ the website I'm designing for the book.
2. I don't know how to make a website so I'm interested \_\_\_\_\_.
3. People \_\_\_\_\_ all the time.
4. \_\_\_\_\_ the steps with you.
5. \_\_\_\_\_ 150 million domain names out there.

## Extension Activity

Find a great website.

*Instructions: Complete the following steps. Fill in the Self-Assessment.*

- Surf the Internet and look at different types of websites.
- When you find one that appeals to you, look at it in more detail.
- Make notes about what you like about the website.
- If there is anything that you would change, make a note of it.
- Write a paragraph describing the website and why you think it is good.
- Read your paragraph to your class or group.

### Self-Assessment

Yes

No

I surf the Internet and look at different websites.

☐ ☐

I look in detail at a website that I like.

☐ ☐

I write a paragraph about what I like about the website and why.

☐ ☐

I read my paragraph aloud to a group.

☐ ☐

## Target Words

- perplexing** (adjective): confusing and uncertain  
e.g. It sounds perplexing already.
- user-friendly** (adjective): easy to use and understand  
e.g. New content management systems like Word Press are very user-friendly.
- domain name** (noun): the part of an email or website address giving the name of the organization the address belongs to  
e.g. The next I thing I did was to choose a domain name and a hosting to represent the book and publisher.
- per** (adverb): for each  
e.g. On Word Press these cost about \$4 per month.
- brandable** (adjective): unique; able to be marketed  
e.g. You need to think up a brandable and catchy domain name.
- catchy** (adjective): instantly appealing and memorable  
e.g. A catchy slogan is one that sticks in your mind.
- to customize** (verb): to modify something to suit a particular individual or task  
e.g. You can customize the templates any way you want so that they reflect what you want to communicate to your viewers.

## Learning Points

### Review: Simple Present, Present Continuous, Simple Future

Let's review the uses of each of these verb tenses.

You use the Simple Present Tense:

1. To talk about something that is true in the present  
Example: *The group **consists** of both old and new employees.*
2. To talk about something that is repeated (routines)  
Example: *I **get up** at 5:00 every morning.*
3. To talk about something that is always true (fact)  
Example: *Water **contains** oxygen and hydrogen.*
4. To talk about schedules in the future  
Example: *The bus **leaves** at 7:00 this evening.*

You use the Present Continuous Tense:

1. To talk about something that is happening at the moment of speaking  
Example: *I **am trying** to understand when I have to use present continuous.*
2. To talk about something which is happening at a specific time  
Example: *At 7:00 tonight, I **am playing** guitar at the local bar.*
3. To talk about temporary events  
Example: *I am at the conservatory. I **am studying** music.*
4. To talk about changes, developments and trends  
Example: *The growing number of clients **is putting** a strain on our resources.*
5. To emphasize that something is done repeatedly

Example:

*They're **always having** friends over on Friday nights.*

You use the Simple Future (will) to:

1. To predict something will happen in the future  
Example: *I imagine the boardroom **will** be full for the meeting.*
2. To make a decision in the moment of speaking  
Example: *Okay, I'**ll** start the meeting.*

**Examples:**

## Learning Points

- *I don't know how to make a website so I'm interested to see how you did it.*
- *People are adding resources all the time.*
- *I'll go through the steps with you.*
- *There are already 150 million domain names out there.*
- *I'm working on linking pages for the author bio and some social media safety information.*
- *I think it will look great when it's all done.*

## How to Create a Website

Having a professional-looking website could be crucial to your business. What are the steps to creating a website?

1. Choose the website building platform that you will use for your site.
2. Select a domain name and a hosting to represent the book and publisher.
3. Design a theme or a template and start adding your content, like images or text.
4. Customize the templates any way you want so that they reflect what you want to communicate to your viewers.
5. Add pages and link them to your navigation bar so you can group types of information.
6. Edit your page titles and taglines so that people searching for your site can easily find it.
